

NOWELL SANDBLAST - NO 1 APR BULL

- Flowerpower son with added strength and capacity from 9 generations of EX or VHC cows.
- Great reports on Sandblast daughters who consistently display tremendous body depth and spring of rib with high and wide rear udders that have great ligament strength and teat placement.
- The first 35 classified daughters have an average score of 85.3 points.
- Outstanding production with high milk flow and extreme components
- Watch out for this A2/A2 all-round type and production leader to blast to the top in 2011
